CERTIFIED MAIL

Return Receipt 7002 0860 0000 6591 2141

June 2, 2004

Michael A. Teague, Ph.D.
Vice President / ESHA
Clariant Corporation
4000 Monroe Road
Charlotte, North Carolina 28205

Re: Proposed Conceptual Site Model for Red Pigments 214 and 414

Dear Dr. Teague:

This is in response to your April 30, 2004 letter regarding a proposed approach for assessing potential exposure risks associated with the use of Clariant Red Pigments 214 and 414. The proposed approach includes the development of a work plan for EPA's review and approval, that will assist in the development of a Conceptual Site Model for these pigments. A description of the proposed approach was provided via an attached letter from BBL Sciences, Inc, who you have selected to assist you with this project. In your letter, you request EPA's concurrence on this approach.

EPA has reviewed your request and the proposed approach provided by BBL and agrees that given the complexity and importance of this project, that the proposed approach is reasonable. As you acknowledge in your letter, this is a high priority project and EPA expects Clariant to submit its work plan as soon as possible so that the assessment can proceed.

Should you have any questions regarding this, please feel free to call me at (617)918-1527.

Sincerely,

Kimberly N. Tisa, PCB Coordinator
Office of Ecosystem Protection

L. Casey, EPA-HQ

WORKPLAN OUTLINE

I. Executive Summary

II. Background

- A. Overview
- B. Company Organization
- C. Project Management Structure
- D. Contents of Report

III. Objectives

- A. Project
- B. Risk Assessment Report

IV. Data Sampling & Analysis & Quality Assurance

- A. Data Quality Objectives
- B. Data Acquisition
 - 1. Sampling Strategy
 - 2. Additional Analytical Needs
- C. Sampling Analysis, Reporting & Validation

V. Human Health Risk Assessment

- A. Approach
- B. Exposure Assessment
 - 1. Conceptual Model
 - 2. Exposure Point Concentrations
 - 3. Exposure Parameters
- C. Toxicity Assessment
- D. Risk Findings & Uncertainty
 - 1. Carcinogenic Maximum Exposure
 - 2. Carcinogenic Average Exposure
 - 3. Non-Carcinogenic Maximum Exposure
 - 4. Non-Carcinogenic Average Exposure
 - 5. Probabilistic Analysis
 - 6. Conclusions, Uncertainty, and Recommendations

VI. Appendices

Re: Clariant Corporation Additional Documents for Ms. Marianne Milette

Dear Ms. Toscano:

Please find one confidential copy and three company sanitized copies of the following documents:

1. Clariant Corporation letters to pigment customers requesting end-use information.
2. Responses from customers to Clariant.
3. Consolidated Second Tier Customer and End Use Supplement.
4. Second Tier Customer and End Use Supplement.

Please feel free to contact me if any additional information is needed regarding this submittal.

Sincerely,

A handwritten signature in blue ink that reads "Erin Russell".

Erin Russell

Dear

As we previously communicated, Clariant Corporation voluntarily disclosed to regulatory agencies our recent discovery of PCB impurities in some lots of our PV Fast Red 3B and PV Fast Red BNP pigments. Based on this disclosure, Clariant Corporation met with the Region 1 office of the U.S. Environmental Protection Agency on October 14. The EPA has formally requested that Clariant provide the agency with certain information regarding the manufacture and downstream uses of these two pigments.

The EPA's request instructs Clariant to provide a list of our customers that received these pigments, as well as certain information regarding your customers that received products manufactured with these pigments. The purpose of providing this data is to allow the EPA to better understand the end uses and end markets for these pigments. To gather the data in a consistent manner, we have attached a form for you to complete for each customer.

Clariant will be supplying similar information regarding the customers to whom we shipped these pigments, including. At this time, we do not know if the EPA will choose to make direct contact with you or your customers. We are continuing to supply *other* analytical and end use data to the EPA with the hope that it will minimize or eliminate the need for direct contact with you and/or your customers. Therefore we appreciate the efforts you make now to help us gather this important information.

Please be assured that Clariant Corporation will treat this information as strictly confidential to be shared only with the EPA as necessary. Clariant Corporation will claim all customer information as "TSCA Confidential Business Information," per their regulations at 40 C.F.R. Part 2, Subpart B. All information provided will be utilized only by Clariant's environmental, safety and health managers for this limited use. Under no circumstances will it be disclosed to any of Clariant's business unit personnel.

Please complete the attached form, one per customer, and send to my attention at fax number (704) 331-7105. To meet the EPA deadline, please return your forms by November 21, 2003 at the latest.

Thank you again for your cooperation in this matter. Clariant is working diligently to bring this issue to closure. If you have any questions, please call me at (704) 331-7104.

Clariant Corporation

A handwritten signature in dark ink, appearing to read "M. A. Teague".

Michael A. Teague

Vice President - Environmental, Safety & Health Affairs

INSTRUCTIONS: Complete one form for each customer that received your products containing either of the Clariant pigment products that we previously notified you contained impurities. Fax each form to Mike Teague at (704) 331-7105 by November 21, 2003.

Please check the accuracy of the information in this section and make any corrections, then duplicate the form as necessary.

The purpose of providing this data is to allow the EPA to better understand the end uses and end markets for these pigments. To gather the data in a consistent manner, we have attached a form for you to complete for each customer.

Clariant will be supplying similar information regarding the customers to whom we shipped these pigments, including At this time, we do not know if the EPA will choose to
make direct contact with you or your customers. We are continuing to supply *other* analytical and end use data to the EPA with the hope that it will minimize or eliminate the need for direct contact with you and/or your customers. Therefore we appreciate the efforts you make now to help us gather this important information.

Please be assured that Clariant Corporation will treat this information as strictly confidential to be shared only with the EPA as necessary. Clariant Corporation will claim all customer information as "TSCA Confidential Business Information," per their regulations at 40 C.F.R. Part 2, Subpart B. All information provided will be utilized only by Clariant's environmental, safety and health managers for this limited use. Under no circumstances will it be disclosed to any of Clariant's business unit personnel.

Please complete the attached form, one per customer, and send to my attention at fax number (704) 331-7105. To meet the EPA deadline, please return your forms by November 21, 2003 at the latest.

Thank you again for your cooperation in this matter. Clariant is working diligently to bring this issue to closure. If you have any questions, please call me at (704) 331-7104.

Dear

As we previously communicated, Clariant Corporation voluntarily disclosed to regulatory agencies our recent discovery of PCB impurities in some lots of our PV Fast Red 3B and PV Fast Red BNP pigments. Based on this disclosure, Clariant Corporation met with the Region 1 office of the U.S. Environmental Protection Agency on October 14. The EPA has formally requested that Clariant provide the agency with certain information regarding the manufacture and downstream uses of these two pigments.

The EPA's request instructs Clariant to provide a list of our customers that received these pigments, as well as certain information regarding your customers that received products manufactured with these pigments. The purpose of providing this data is to allow the EPA to better understand the end uses and end markets for these pigments. To gather the data in a consistent manner, we have attached a form for you to complete for each customer.

Clariant will be supplying similar information regarding the customers to whom we shipped these pigments, including At this time, we do not know if the EPA will choose to

The EPA has formally requested that Clariant provide the agency with certain information regarding the manufacture and downstream uses of these two pigments.

The EPA's request instructs Clariant to provide a list of our customers that received these pigments, as well as certain information regarding your customers that received products manufactured with these pigments. The purpose of providing this data is to allow the EPA to better understand the end uses and end markets for these pigments. To gather the data in a consistent manner, we have attached a form for you to complete for each customer.

Clariant will be supplying similar information regarding the customers to whom we shipped these pigments, including. At this time, we do not know if the EPA will choose to make direct contact with you or your customers. We are continuing to supply *other* analytical and end use data to the EPA with the hope that it will minimize or eliminate the need for direct contact with you and/or your customers. Therefore we appreciate the efforts you make now to help us gather this important information.

Please be assured that Clariant Corporation will treat this information as strictly confidential to be shared only with the EPA as necessary. Clariant Corporation will claim all customer information as "TSCA Confidential Business Information," per their regulations at 40 C.F.R. Part 2, Subpart B. All information provided will be utilized only by Clariant's environmental, safety and health managers for this limited use. Under no circumstances will it be disclosed to any of Clariant's business unit personnel.

Please complete the attached form, one per customer, and send to my attention at fax number (704) 331-7105. To meet the EPA deadline, please return your forms by November 21, 2003 at the latest.

Thank you again for your cooperation in this matter. Clariant is working diligently to bring this issue to closure. If you have any questions, please call me at (704) 331-7104.

COMPANY SANITIZED COPY
DOES NOT CONTAIN TSCA CBI INFO.

Dear

As we previously communicated, Clariant Corporation voluntarily disclosed to regulatory agencies our recent discovery of PCB impurities in some lots of our PV Fast Red 3B and PV Fast Red BNP pigments. Based on this disclosure, Clariant Corporation met with the Region 1 office of the U.S. Environmental Protection Agency on October 14. The EPA has formally requested that Clariant provide the agency with certain information regarding the manufacture and downstream uses of these two pigments.

The EPA's request instructs Clariant to provide a list of our customers that received these pigments, as well as certain information regarding your customers that received products manufactured with these pigments. The purpose of providing this data is to allow the EPA to better understand the end uses and end markets for these pigments. To gather the data in a consistent manner, we have attached a form for you to complete for each customer.

Clariant will be supplying similar information regarding the customers to whom we shipped these pigments, including. At this time, we do not know if the EPA will choose to make direct contact with you or your customers. We are continuing to supply *other* analytical and end use data to the EPA with the hope that it will minimize or eliminate the need for direct contact with you and/or your customers. Therefore we appreciate the efforts you make now to help us gather this important information.

Please be assured that Clariant Corporation will treat this information as strictly confidential to be shared only with the EPA as necessary. Clariant Corporation will claim all customer information as "TSCA Confidential Business Information," per their regulations at 40 C.F.R. Part 2, Subpart B. All information provided will be utilized only by Clariant's environmental, safety and health managers for this limited use. Under no circumstances will it be disclosed to any of Clariant's business unit personnel.

Please complete the attached form, one per customer, and send to my attention at fax number (704) 331-7105. To meet the EPA deadline, please return your forms by November 21, 2003 at the latest.

Thank you again for your cooperation in this matter. Clariant is working diligently to bring this issue to closure. If you have any questions, please call me at (704) 331-7104.
